October 20, 2023

An Open Letter to Government Leaders and Well-Wishers of Humanity

This is an invitation to support the most effective technology for creating a global influence of harmony and prosperity ever researched. It's been confirmed by more than 50 demonstration projects around the world, with 28 studies published in peer-reviewed journals validating its results.

This technology is so powerful, at such a low cost, that permanent global peace can be created for the next hundred years at a lower cost than *one day* of US military expenses.

When demonstrated, once again, that this technology can create a global influence of peace and harmony, can you think of any project that would deserve your support more?

To get an idea how this technology works, please:

- Watch this video: [Technology for Global Transformation explained in 5 minutes](#)
- [Download the 11-slide card deck](#) that lists a few of the 50 experiments
- [Download the free ebook](#) that gives a simplified overview of the technology and the scientific experiments.

These consciousness-based technologies, based on the ancient Vedic wisdom of India were introduced to the world by His Holiness Maharishi Mahesh Yogi in the early 1970s and have been practiced widely ever since.

During the past 50 years, repeated scientific experiments have demonstrated highly statistically significant effects from these specialized, consciousness-based Vedic technologies in reducing conflict, crime, violence, accidents, drug-related deaths, hospital admissions, and many other negative trends and strengthening positive tendencies throughout society. Scientists have found that these effects occur in a society when the square root of 1% of that population practices the technologies together in one place.

The required number of Vedic experts to see a positive transformation on a global scale is around 9,000, assuming a world population of roughly 8 billion. The effect has been shown to create this positive influence in individual countries when at least the square root of the country's population is practicing these Vedic technologies together on a daily basis.

We are more than happy to provide the simple training in these technologies to a group of the square root of 1% in any country. The training will take only a few hours over four days, but it will require approximately three (3) months of follow-up calls

John Hagelin, Ph.D.

International President
Quantum Physicist, USA
Director, Institute of Science,
Technology and Public Policy
Executive Director, International
Center for Invincible Defense

Tony Nader, M.D., Ph.D.

Chairman of the Board &
Director of Brain and Cognitive
Science, GUSP; International
President, Global Country of
World Peace

Ashley Deans, Ph.D.

Executive Vice President
Astrophysicist, Canada
Director of International Programs,
David Lynch Foundation

International Directors

Hon. Yukio Hatoyama, Ph.D.

Prime Minister of Japan, 2009-2010
Member, House of Representatives,
1986-2012; Founder and Chair,
Democratic Party of Japan

Lt. Gen. José Martí Villamil

Chief of Staff of the Army
Chief of Staff, Joint Command
Vice-Minister of Defense
General Secretary, National
Security Council, Ecuador

S.D. Maksymenko, D.Sc.

Prof. and Academician, National
Academy of Pedagogical Sciences
Chair, Society of Psychologists,
Ukraine

Ibrahim Said, M.Sc., M.Phil.

Specialist in Nuclear Disarmament
and Nonproliferation, UN Fellow
Ministry of Foreign Affairs, Egypt

Lt. Col. Gunter Chassé

Vice President of Military Science
Commander, Integrated NATO
Air Defense, German Air Force

René Drucker Colín, Ph.D.

Neuroscientist, Brain Physiologist
Former President, Academy
of Sciences, Mexico

Agyeman Badu Akosa, M.D.

President, Commonwealth
Medical Association (Ret.)
Director-General, Ghana Health
Service (Ret.), Ghana

Hon. Kigyagi Arimpa John

Senior Presidential Advisor on
Environment & Climate Change
Member of Parliament (Ret.)
Conservation Biologist, Uganda

Aftab Ahmad Chattha, Ph.D.

President, National Academy
of Young Scientists (NAYS)
Chairman, Center for Education,
Science & Technology, Pakistan

Ricardo Navarro, D.Sc.

Founder and President,
Center for Appropriate Technology
(CESTA), El Salvador

Col. Brian Rees, M.D., M.P.H.
Command Surgeon, Medical Corps,
US Army Reserve, USA
Brigade Surgeon, Afghanistan

to make sure the techniques are being practiced correctly and that the newly trained participants have enough experience to contribute to the coherence-creating effect.

It will be a pleasure to further discuss with you personally how all of us can join hands in this historic application of the ancient Vedic wisdom. Together, we can reduce suffering in humanity and create a beautiful upsurge of peace and harmony for all mankind.

Please feel free to contact me at: Chairman@GUSP.org.

With best wishes,

Dr. Tony Nader

Tony Nader, MD, PhD

Chairman, Global Union of Scientists for Peace

International President, Global Country of World Peace

International President, Maharishi Universities
